

HydraFacial: The Ultimate Skin Rejuvenation Experience

The Science Behind HydraFacial

Vortex-Fusion Technology

Spiral design delivers serums while removing impurities.

HydroPeel Tips

Unique tips exfoliate and resurface skin without irritation.

Vortex Suction

Painlessly extracts debris, increases circulation, and detoxifies skin.

What Makes HydraFacial Unique?

1

3-in-1 Treatment

Combines benefits of chemical peels, microdermabrasion, and deep hydration.

2

Suitable for All Skin Types

Safe and effective for all Fitzpatrick skin types (I-VI).

3

No Downtime or Irritation

Instant results without redness, peeling, or irritation.

4

Customizable

Various serums and boosters target specific skin concerns.

The 4-Step HydraFacial Process

Cleanse + Exfoliate

Removes dead skin cells and impurities using glucosamine and lactic acid.

Gentle Peel

Non-irritating glycolic and salicylic acid peel loosens debris in pores.

Extract + Hydrate

Vortex suction extracts impurities while infusing hydrating serums.

Fuse + Protect

Delivers antioxidants, peptides, and hyaluronic acid to protect skin.

Step 1: Cleanse + Exfoliate

What It Does

Removes dead skin cells and impurities using glucosamine and lactic acid.

Why It's Important

Accelerates cell turnover, improves product penetration, and enhances skin texture.

Science Behind It

Lactic acid dissolves dead skin cells, while glucosamine brightens and improves texture.

Step 2: Gentle Peel

What It Does

Delivers non-irritating glycolic and salicylic acid peel to loosen debris in pores.

Why It's Important

Reduces pore size, fine lines, and hyperpigmentation without causing irritation.

Science Behind It

Glycolic acid exfoliates deeply, while salicylic acid penetrates pores to dissolve oil.

Step 3: Extract + Hydrate

What It Does

Vortex suction extracts impurities while infusing hydrating serums.

Why It's Important

Painless extraction prevents excess oil production and deeply hydrates skin.

Science Behind It

Hyaluronic acid hydrates, antioxidants protect, and peptides stimulate collagen production.

Step 4: Fuse + Protect

1

What It Does

Delivers customized blend of antioxidants, peptides, and hyaluronic acid.

2

Why It's Important

Seals in hydration, protects against environmental damage, and enhances elasticity.

3

Science Behind It

Red algae extract and copper peptides promote collagen synthesis and UV protection.

Who Should Get HydraFacial?

Fine Lines and
Wrinkles

Uneven Skin
Tone

Hyperpigmentat
ion

Enlarged Pores

Dull Skin

HydraFacial Results and Maintenance

Instant Glow

Noticeable glow immediately after treatment.

1

2

Long-Term Results

Results last 5-7 days with a single session.

Maintenance

Monthly sessions recommended for optimal long-term benefits.

3

How does HydraFacial MD treatment work?

A technical video for clinics about HydraFacial, the celebrity-favourite facial to achieve and maintain healthy, clear, star-quality skin. Available at over 70 UK clinics, it's the only procedure that combines cleansing, exfoliation, extraction, hydration and antioxidant...

A Personal Thank You from Me & My Team

To my incredible clients,

Thank you for trusting **me and my team** with your skin, your confidence, and your journey to feeling your best. Every time you walk through our doors, you're not just a client—you're part of something I've built with passion, integrity, and a deep love for what I do.

I promise to always be honest, to guide you with care, and to deliver results that you'll love—not just today, but for years to come. My team and I are here for you, every step of the way.

With all my gratitude,

Sapana Dhakal

Founder, **ILML Aesthetics**
