

# K-Beauty Facial: Ultimate Glow & Skin Rejuvenation

The K-Beauty Facial is a science-backed, multi-step rejuvenation treatment. It harnesses Korean skincare principles, ultrasound technology, and LED therapy.

Perfect for those who want results without needles or downtime!

# The Science Behind K-Beauty

## Deep Cleansing & Enzyme Exfoliation

Removes impurities and dead skin cells. Uses gentle enzymes to unclog pores without irritation.

## Sonnex Ultrasound Skin Tightening

Uses ultrasonic waves to penetrate deep into the dermis. Boosts collagen and elastin production.

## Hydration & Barrier Strengthening

Infuses skin with antioxidants, peptides, and humectants. Strengthens the skin's protective barrier.

## LED Light Therapy

Uses specific wavelengths of light to target different skin concerns. Works at a cellular level.

# Sonnex Ultrasound Technology

## Deep Penetration

Ultrasonic waves reach the dermis where collagen is produced. Goes beyond surface treatment.

## Collagen Stimulation

Increases fibroblast activity. Boosts natural collagen and elastin production.

## Instant Results

Immediately tightens skin. Reduces fine lines and wrinkles without downtime.
