

## Microneedling: Rejuvenate Your Skin

# What is SkinPen Microneedling?

1

## Collagen Induction Therapy

Uses fine, sterile needles to create micro-injuries in the skin.

2

## Stimulates Healing

Triggers the body's natural wound healing process.

3

## Preserves Epidermis

Unlike lasers or peels, it doesn't remove top skin layers.

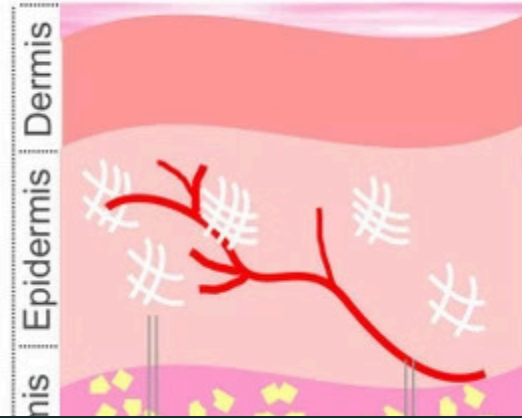

# 20s

Free Radicals Attack Surface  
Environmental Damage is High

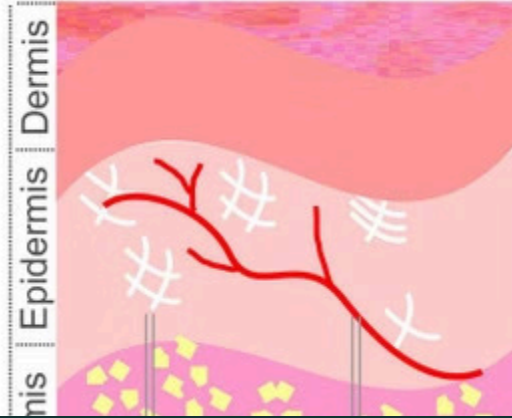

# 30s

First Signs of Aging Appear  
Dull, Lackless, Lifeless Skin

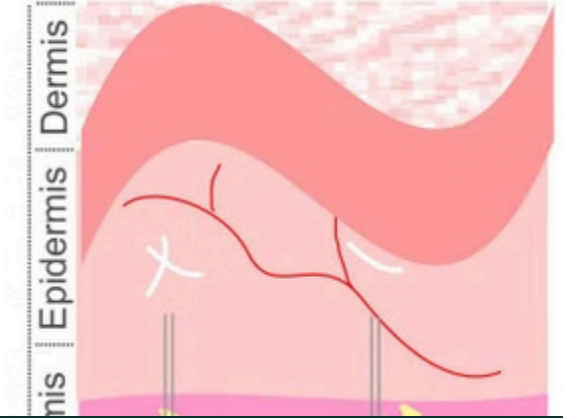

# 40s

Significant dullness, aging &  
dark spots. Skin sensitivity.

# 50+

Significant tension decrease.  
Moisture retention slowing.

## The Science Behind SkinPen

1

### 1. Inflammation Phase

Micro-injuries increase blood flow, delivering growth factors.

2

### 2. Proliferation Phase

New tissue forms, including collagen and elastin fibers.

3

### 3. Remodeling Phase

Newly formed tissue matures, resulting in smoother, firmer skin.

### **What Is SkinPen Microneedling & How Does It Work?**

SkinPen is the only FDA-approved microneedling device for acne scars. If you've been suffering with confidence issues because of your acne scars, SkinPen is the...

# Benefits of SkinPen Microneedling

## Improves Texture

Reduces fine lines, wrinkles, and enlarged pores.

## Scar Reduction

Effective for acne scars, surgical scars, and stretch marks.

## Anti-Aging

Restores volume and elasticity lost due to aging.

## Enhanced Absorption

Allows better absorption of topical serums.

# Why Choose Microneedling for Anti-Aging?

1

## Natural Aging Process

Collagen production decreases 1% annually after age 25

2

## Collagen Loss

Results in decreased skin firmness and elasticity over time

3

## Microneedling Solution

Reactivates fibroblasts to produce new collagen

4

## Restored Production

Stimulates natural elastin and collagen synthesis

Collagen production decreases by 1% annually after age 25. Microneedling reverses this process, reactivating fibroblasts to produce new collagen and elastin.

# What to Expect: Procedure and Downtime

1

Day 1-2

Mild redness and swelling, similar to a mild sunburn.

2

Day 3-5

Dryness and slight peeling as the skin heals.

3

Day 5+

Glowing, refreshed skin begins to emerge.

# Results and Longevity

## New Collagen

Visible as early as 4 weeks, with significant improvements at 3-6 months.

## Longevity

Results can last up to 2 years with maintenance treatments.

## Best Results

Typically seen after 3-6 sessions spaced 4-6 weeks apart.

## Pricing

Microneedling	Regular	Starter	Mastery	Elite
	399	319.20	223.44	134.06

Skin Concern	Recommended Sessions	Frequency	Maintenance
General Skin Rejuvenation	3-4 sessions	Every 4-6 weeks	1 session every 6-12 months
Fine Lines and Wrinkles	4-6 sessions	Every 4 weeks	1 session every 6 months

Enlarged Pores and Texture	3-4 sessions	Every 4 weeks	1 session every 6 months

## A Personal Thank You from Me & My Team

To my incredible clients,

Thank you for trusting **me and my team** with your skin, your confidence, and your journey to feeling your best. Every time you walk through our doors, you're not just a client—you're part of something I've built with passion, integrity, and a deep love for what I do.

I promise to always be honest, to guide you with care, and to deliver results that you'll love—not just today, but for years to come. My team and I are here for you, every step of the way.

With all my gratitude,

**Sapana Dhakal**

Founder, **ILML Aesthetics**
